

Hi Pat and Tex, Only hope this brief review makes you smile like your CD made me smile. Apologies for taking so long. So much music so little time. It's a great life. Let me know about Thanksgiving Eve. In Peace, Louise

Pat and Tex LaMountain have released a new CD this Fall, 'Rivers, Roads, and Bridges.' HAPPY! This CD will make you smile. The stories of their songs and the harmonies of their clear vibrant voices resonate. Pat and Tex once again bring us stories of joy "Slip Away" and alert our attention to environmental issues, "Sunderland Bridge Softshoe." Musicians such as Chris Brashear and Zoe Darrow(fiddlers) along with Jerry Noble(piano)and several more are featured on these sparkling tracks. This CD is a generous array of lovely songs that make a Valley girl fall more deeply in love with this community I share with Pat and Tex. Don't miss "Fly Like A Bird" and "Precious Love". Alleluia!
